

We Develop Your Great Ideas!

A SPRINT is a time limited development period, with closely defined and agreed business objectives.

Choose Your Best Option

Rapid Prototyping

From idea to implementation

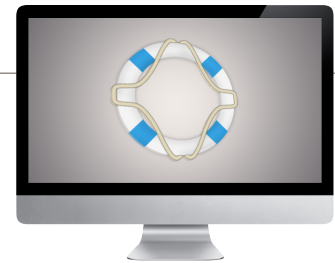

We give 25% discount on your First Software Prototype. Initial version of your application can be ready in two weeks. Perfect solution for startups!

Sprint Development

Control your budget and results

Buy one and our qualified team is yours. Need more features? Buy more Sprints.

Rescue Mission

Analysis + Repair = Success

Got stuck with a current software? Our service will guide you through the analysis and repair processes to reach a solution that works.

Money back guarantee: try us in a half-day Ad-Hoc Development Workshop and if You don't like what You see, we won't charge You!
